

A LEADING GLOBAL FULL-SERVICE DIGITAL INTERACTIVE MARKETING AGENCY

CASE STUDY

An IT solutions provider that offers all-in-one computer networking solutions.

eintelligenceweb.com

About Our Client

Since 1992, in sync with the growing scope of the computer networking domain, the company has been exclusively dedicated to Networking Solutions.

Their Challenges & Our Solutions

With a strong focus on remarkable growth, the client wanted us to develop a website that represents their business model, boosts visibility, and helps to acquire new clients and inquiries in the cut-throat competition in the IT niche.

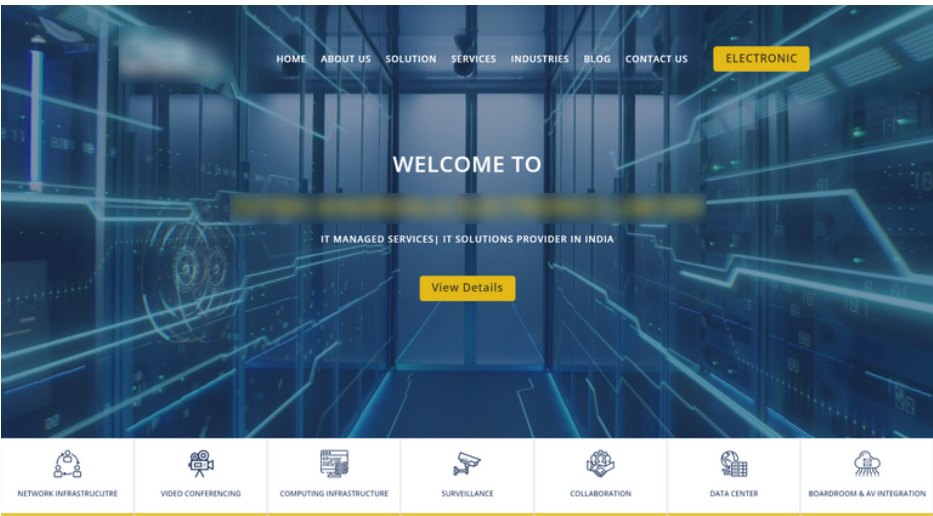

Team e intelligence studied their target audience and created a future-proof heatmap for their website. We designed and deployed their website in 4 weeks. Our solutions helped them skyrocket their business growth in just 3 months.

Technologies Used

WordPress, HTML/ CSS, JavaScript, jQuery, PHP, bootstrap, MySQL

Results We Delivered

- ✓ Developed an interactive and user-friendly website based on their target audience.
- ✓ Incorporating the latest technology and design to demonstrate their IT expertise.
- ✓ Acquired 120+ new inquiries within a month after deployment.

Our Services

Remote Infrastructure Management

Our comprehensive range of remote infrastructure management services gives the customers the advantage to reduce cost of IT Infrastructure support and improve their efficiency of their service levels. As a result they enjoy a consistent, consolidated management and access to best quality talent on a daily basis.

ITSM Consulting

ITSM is a comprehensive framework for IT Service Management and is applicable to all organizations irrespective of the size or the technology in use.

Technology Consulting

In the current competitive times, where rapidly changing trends have become highly concurrent, it is highly crucial to match the stride of new technological changes.
